Claim Notes

Claim number:	C-1231
Claimant:	Larry Cline
Adjuster:	Darin Tyler

February 3, 2023 - Claim received via first notice of loss. Insured reports a low-speed head-on collision in a parking area. Both vehicles drivable. Claimant reports neck pain and stiffness atfer the impact. Claim file opened and assigned for liability and injury review.

February 10, 2023 - Contacted the insured to confirm the facts of the collision. Insured states the other vehicle crossed into their lane while turning. Photos of both vehicles requested and received. Damage appears consistent with a low-speed impact. Police report not required because no one requested one at the scene.

February 19, 2023 - Claimant is now represented by counsel. All further contact to be directed through the attorney's office. Received a letter of representation and a request for the claimant's medical records and a demand for bodily injury coverage. Diary set to follow up on records in thirty days.

February 28, 2023 - Reviewed the medical records provided by counsel. Diagnosis is whiplash-type cervical strian with muscle spasm. Treatment consists of physical therapy and over-the-counter pain medication. Records note prior chiropractic care for unrelated back pain several years ago. Referred the file to the medical review unit for an independent assessment of causation and treatment reasonableness.

March 5, 2023 - Liability assessment completed. Evidence supports a clear liability position against the other driver's policy. Reserves reviewed and adjusted to reflect the current treatment plan. Settlement evaluation pending receipt of the complete billing statements from the treating provider. Supervisor notified of representation status and open medical review.

Recorded Statement

Claim number:	C-1231
Statement of:	Larry Cline
Taken by:	Darin Tyler
Date:	February 4, 2023

Q: Thank you for agreeing to give this recorded statement. Can you confirm you're comfortable with us recording this call?

A: Yes, that's fine.

Q: Please describe where you were and what you were doing when the collision happened.

A: I was driving home from work, heading sotuh on the main road in Katy. It was late afternoon and traffic was moving slowly.

Q: Can you tell me what happened next?

A: The car in front of me stopped suddenly, so I braked. Then a vehicle coming the other way drifted into my lane and we collided head-on. It wasn't a hard hit, but it was enough to jolt me forward and back.

Q: How fast do you believe you were traveling at impact?

A: I'd say maybe fifteen or twenty miles an hour. I had just slowed down when it happened.

Q: Did you lose consciousness or hit your head?

A: No, I didn't hit my head. I stayed awake the whole time.

Q: Did you get medical attention after the collision?

A: Yes, a paramedic checked me at the scene, and then I went to an urgent care clinic later that evening because my neck was really sore.

Q: Where are you feeling pain or stiffness right now?

A: My neck and upper back are the worst. I also get headaches that start at the base of my skull, and my shoulders feel tight.

Q: Have you had any prior neck or back injuries?

A: No, nothing significant. I've had some general stiffness from sittnig at a desk, but nothing that required treatment.

Q: Is there anything else you'd like to add to your statement?

A: Just that I'm still going to physcial therapy a few times a week, and I'm keeping track of my symptoms in case you need more details.

Q: Thank you. This concludes the recorded statement.

A: Thank you.
