Description of the accident (claimant's words)

I was sitting in the front passenger seat when our car was struck by another vehicle while we were backing out of a parking space in Baytown, Texas. The impact came from the driver's side rear, and my head snapped sideways against the window frame. For a few moments I felt dizzy and disoriented, and I had a ringing sound in my ears. Someone from the store came over and helped me sit down until the paramedics arrived. At the hospital I was diagnosed with a concussion. The doctor told me to rest, avoid screens for several days, and return if my headaches or nausea got worse. I have had to take time off work and I still get headaches when I read for long periods.
