Description of the accident (claimant's words)

I was driving in the right lane on the access road in Katy, Texas, when I signaled and began moving into the left lane to get past a slow-moving truck. As I moved over, a vehicle in the left lane was already alongside me, and its side made contact with the passenger side of my car. I heard a loud scrape and felt my car shove sideways. I braked and pulled onto the shoulder once it was safe to do so. I did not see the other vehicle's turn signal before the impact, and I did not notice it until my mirror showed it beside me. Neither vehicle left the roadway. Since the collision I have had stiffness and pain in my neck and lower back, and I have been advised by a medical provider that these are soft tissue strains. I have photographs of both vehicles and the lane markings at the scene.
