Statement of:	Brooke Gonzalez

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on a recording yet, but you can use the claim file for that.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was driving on a city street in Houston, heading toward a shopping center. It was in the early afternoon and the traffic was light.

Q: What happened right before the impact?

A: The other car drifted into my lane. I braked and turned slightly, but we still met head-on. It wasn't a high-speed hit. Both cars were moving slowly, maybe fifteen or twenty miles an hour.

Q: Did your airbags deploy?

A: Yes, the front airbags went off. My face hit the steering wheel area and I felt dizzy right away.

Q: Did you lose consciousness, even briefly?

A: I don't think I passed out completely, but things went blurry for a few seconds. I remember sitting there with a ringing in my ears.

Q: How are you feeling now?

A: Headaches every day, mostly in the afternoon. Bright lights bother my eyes, and I get tired much faster than before. I can't concentrate on reading for long, and my doctor has told me it's a concussion and that I need to rest my brain.

Q: Have you been seen by a physician or other provider since the accident?

A: Yes, I went to an urgent care clinic that same day and I've had follow-up visits since then. I'm also seeing a specialist now.

Q: Is there anything else you'd like to add?

A: Only that I'm not able to work the way I used to, and I want this handled properly. Thank you.
