Claim Notes

Claim number:	C-1261
Claimant:	Evelyn Ochoa
Adjuster:	Darin Tyler

May 24, 2025 - Claim opened following a report of a low-speed collision in a parking lot. Insured vehicle was reversing out of a space when it contacted the claimant's parked vehicle. Insured states the other vehicle was not visible at the time. Photos of both vehicles requested and received. Liability appears probable against insured pending review of lot camera footage.

May 27, 2025 - Claimant has reported a wrist fracture sustained when she stepped out of her vehicle and fell during the impact. Medical records requested. Claimant is represented by counsel; all further contact to go through the attorney's office. Letter of representation received and placed in file.

June 2, 2025 - Spoke with claimant's attorney's office. They confirmed the fracture was treated with a closed reduction and a cast, and that follow-up orthopedic appointments are scheduled. Requested itemized medical bills, wage loss documentation, and any prior records of wrist complaints. Attorney indicated a demand package will follow once treatment is complete.

June 7, 2025 - Reviewed the lot security footage obtained from the property manager. Footage shows the insured vehicle backing into the claimant's vehicle at low speed while the claimant was seated in the driver's seat. Insured appears to have failed to check blind spots before reversing. Liability assessment updated to reflect insured as primarily at fault. Notified the insured's property damage and bodily injury coverage handlers.

June 12, 2025 - Independent appraiser assigned to the claimant's vehicle. Estimate received for rear quarter panel repair and bumper replacement. Reserve adjusted to reflect the estimate and the anticipated bodily injury exposure. Supervisor review requested due to attorney involvement and the nature of the injury. Next step is to await medical documentation before evaluating settlement range.

Recorded Statement

Claim number:	C-1261
Statement of:	Evelyn Ochoa
Taken by:	Darin Tyler
Date:	May 29, 2025

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my name on the recording, if that's all right. I'm the driver of the vehicle involved.

Q: That's fine. Can you tell me where the collision happened?

A: It was in a parking lot in Conroe, Texas, at a shopping center. I was pulling out of a parking space near the main entrance.

Q: What happened just before the impact?

A: I was backing out slowly, checking my mirrors. A pickup came down the lane fairly fast and clipped the rear quarter panel of my car. I slammed on the brakes, but it was too late.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did you feel any injury at the time?

A: Not right away. I grabbed the steering wheel when I braked hard, and my left wrist took most of the force. By the next morning it was swollen and I couldn't grip anything.

Q: Have you received medical treatment?

A: Yes. I went to urgent care and they X-rayed it. The doctor said it was a fracture of the wrist, and I've been wearing a splint and going to follow-up appointments.

Q: Is there anyhting else you'd like to add about the accident?

A: Only that the other driver told the officer at the scene that she didn't see my car. I was stopped and signaling before the impact, and I'd like that noted.

Q: Thank you. That concludes the statement.

A: Thank you.
