Description of the accident (claimant's words)

I was driving north on the main road in League City, Texas, slowing for a traffic signal, when the vehicle in front of me stopped suddenly. I braked, but the car behind me did not stop in time, and my vehicle was pushed forward into the back of the car ahead. The collision was a low-speed impact, and both vehicles were drivable after it happened, though the front of my car sustained visible damage. I was wearing my seatbelt. Immediately after the impact, I felt a sharp pain in my right shoulder when my body jerked against the restraint. I did not lose consciousness, and the pain has continued since then, limiting my ability to lift my arm above my head. I have sought medical evaluation for the shoulder injury and will provdie records as they become available.
