Description of the accident (claimant's words)

I was making a left turn at a regular intersection in Houston, Texas, and had the green light for my lane. I had slowed almost to a stop and was waiting for a gap in oncoming traffic when a vehicle coming from the opposite direction struck the front driver's side of my car. The impact was hard enough to push my vehicle partway into the crosswalk. I did not see the other car approaching until just before the collision. Airbags deployed in my vehicle, and I remained seated with my seatbelt on the entire time. Afterward I felt pain and stiffness in my lower back, and I was checked at the scene by emergency medical personnel before being taken to be evaluated. I was diagnosed with a back strain and am following my doctor's recommended treatment plan. I am providing this account so the facts of how the collision happened are documented accurately.
