Officer's narrative

Officer narrative. On arrival at the intersection in Sugar Land, Texas, I observed a side impact collision between two pasesnger vehicles. Driver 1 was operating a sedan northbound and entered the intersection on a steady green signal. Driver 2 was operating an SUV westbound and failed to yield the right of way, entering the intersection against a red signal and striking the driver's side of Driver 1's vehicle. A Passenger was seated in the front passenger seat of Driver 2's vehicle and was not injured. Driver 1 remained at the scene and reported head pain, dizziness, and confusion following the impact. Driver 1 stated they did not lose consciousness but reported symptoms consistent with a concussion. Both vehicles sustained heavy damage and were towed from the scene. Traffic control was established and Sugar Land fire personnel evaluated Driver 1 on scene before transport was arranged. Driver 2 stated the signal had just changed. No citations were issued pending further investigation of the signal timing.
