Description of the accident (claimant's words)

I was making a left turn at an intersection in Katy, Texas, going slowly with my turn signal on, when a pickup truck coming from the opposite direction struck the front driver's side of my car. The impact spun my vehicle partway around and the airbags deployed. I did not see the truck until the moment of contact, and I believe the other driver was approaching at a higher speed than the posted limit. I was wearing my seatbelt. After the collision I felt dizzy, had a severe headache, and was confused for several minutes, and I was later diagnosed with a concussion. My car was towed from the scene and is not drivable. I exchanged information with the other driver and a police report was filed at the scene. I am providing this account so the claim can be processed.
