Claim Notes

Claim number:	C-1272
Claimant:	Michele Rogers
Adjuster:	Jerry Hanson

February 23, 2023 - Received first notice of loss for low-speed head-on collision. Insured reports the other vehicle crossed into the lane during a slight curve. Both drivers stopped at scene, no police response required. Claimant reports wrist pain and has since retained counsel, who has requested all future cnotact be directed to their office.

March 1, 2023 - Spkoe with claimant's attorney's office to confirm representation and obtain the medical authorization. Attorney advised that the claimant was evaluated at urgent care and diagnosed with a wrist fracture. Requested copies of all treatment records and itemized bills. Advised that liability is under review and no offer will be made until records are received.

March 8, 2023 - Reviewed photos from both vehicles. Damage is consistent with a low-speed frontal impact, with bumper cover and hood contact on both sides. Scheduled independent appraisal for the claimant's vehicle. Noted that the insured's dashcam footage was reviewed and shows the other vehicle drifting left before contact.

March 12, 2023 - Received the orthopedic consult notes from the claimant's treating physician through counsel. Recodrs confirm a closed fracture of the distal radius, treated with a splint and referral to a hand specialist. Recovery timeline is listed as ongoing. Placed the file on medical review and requested a records summary from our nurse reviewer.

March 21, 2023 - Nurse reviewer summary received. Findings support the reported injury as consistent with the collision mechanism. Liability assessment completed, with the other driver assinged majority fault. Sent a written status update to claimant's counsel and set a diary to follow up on outstanding specialist records in two weeks.

Q: Thanks for taking the time to speak with me today. This call is being recorded for claim purposes. Can you confirm you're okay to proceed?

A: Yes, that's fine.

Q: Great. Can you walk me through what happened on the day of the collision?

A: I was driving on a two-lane road in Houston, heading toward the highway. It was a fairly quiet stretch. Traffic was light, and I was going maybe twenty-five miles an hour.

Q: Where were you when you first noticed the other vehicle?

A: The other car was coming toward me in my lane. It had drifted over the center line. I tapped the brakes and turned to the right, but it still hit my front end. It wasn't a hard impact, more like a bump and a jolt.

Q: Did either airbag deploy?

A: No, they didn't. My seatbelt was on, and I didn't hit my head.

Q: Can you describe your injuries?

A: My left wrist hurt right away. I put my hand out on the steering wheel and it took most of the force. I went to the emergency room later that day and they said it was fractured. I've got a cast and I'm seeing a specialist next week.

Q: Are you still receiving treatment?

A: Yes, I'm doing physical therapy twice a week for now. I haven't been able to drive much since, and I've had to rely on rides from family.

Q: Did you have any prior injuries to that wrist?

A: No, nothing I can remember.

Q: Is there anything else you'd like to add about the accident?

A: Just that the other driver apologized at the scene and said they had looked down at their phone. I wanted that on record.

Q: Thank you. We'll follow up with you in writing about the next steps.

A: Okay, thank you.
