Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered the crossing, a vehicle coming from the left side ran the red siganl and struck the passenger side of my car. The impact pushed my vehicle sideways and the airbags deployed. I was able to get out of the car on my own, and the other driver stopped nearby. Police were called to the scene and I gave my statement to the officer. Shortly afterward I noticed stiffness and pain in my neck, which has continued since. I sought medical evaluation, was diagnosed with a neck strain, and have been advised to rest and attend physical therapy. I am submitting this account so my claim can be reviewed.
