Description of the accident (claimant's words)

I was driving east on the main road and entered the intersection on a green light when a car coming from the cross street ran the red and struck the driver's side of my vehicle. I braked as hard as I could, but there was no time to avoid the collision. My car spun a quarter turn and came to rest against the curb. The airbag on my side deployed, and I was able to get out with help from a passerby. I did not lose consciousness. Shortly afterward I noticed a sharp pain in my right shoulder and difficulty raising my arm. Paramedics checked me at the scene, and I was taken to be evaluated, where the staff told me the shoulder needed further imaging and treatment. I am reporting this accident so that my claim can be processed, and I am willing to provide any additional documentation requested.
