Description of the accident (claimant's words)

I was stopped at a red light on the main road in Pearland, Texas, waiting to turn left, when I felt a hard jolt from behind. My car was pushed forward into the intersection and the airbags did not deploy, but my right knee struck the lower dashboard and I felt immediate pain and swelling. The other driver got out, apologized, and said they had looked down at their phone for a moment. Police were called to the scene and an officer took statements from both of us. I exchanged insurance details and photographed the damage to both vehicles, including the rear bumper and trunk of my car. I was able to drive my car from the scene, but I went to an urgent care clinic later that afternoon because my knee was bceoming stiff and difficult to bend. I am still receiving treatment and will provide further medical records as they become available.
