Description of the accident (claimant's words)

I was driivng in the right lane on the access road in Baytown, Texas, when I signaled and began moving left to merge toward the exit. As I checked my mirror and started into the lane, a vehicle in that lane pulled alongside me and its side made contact with the passenger side of my car. The impact pushed my vehicle toward the median, and I steered back into my lane and brought the car to a stop on the shoulder. I did not see the other vehicle until the contact occurred. Both vehicles remained on the roadway, and I exchanged information with the other driver at the scene. I was taken by ambulance to a local hospital, where I was diagnosed with a fractured wrist after I braced myself against the steering wheel and door frame. I am filing this claim for vehicle damage and medical expenses resulting from the collision.
