Description of the accident (claimant's words)

I was pulling out of a parking space at the shopping center on Broadway Street when the other vehicle, backing out of the space across from me, struck the rear passenger side of my car. I had already stopped and was checking my mirror before moving, so I did not expect the impact. The collision was low speed, but the force jolted me forward and back against the seat. Both vehilces were still in the lot when I got out, and I exchanged information with the other driver and took photos of the damage and the surrounding area. Later that day I began experiencing stiffness and pain in my lower back, which has continued and limits how long I can sit or stand. I went to an urgent care clinic for an evaluation and was told I have a back strain. I am submitting this account and the medical paperwork for review.
