### Description of the accident (claimant's words)

I was driving in the right lane on the highway in Conroe, Texas, when I signaled and began moving over into the middle lane. As I checked my mirror and started to merge, I heard a loud scrape and felt my car jolt to the left. A silver sedan had come up in my blind spot and sideswiped the passenger side of my vehicle. Neither of us had stopped, and the other driver kept going for a short distance before pulling onto the shoulder. I pulled over as well and turned on my hazard lights. My car's door and rear quarter panel were damaged. I felt a sharp pain in my right shoulder from gripping the steering wheel during the impact, and I have had limited range of motion since. I went to the emergency room later that day for evaluation.
