Description of the accident (claimant's words)

I was driving east through the intersection on a green light when a white pickup entered from the cross street and struck the driver's side of my car. The impact spun my vehcile partly around and pushed it onto the shoulder. I heard the airbags deploy and felt a sharp pain in my left wrist when I tried to brace myself against the steering wheel. Bystanders stopped to help, and someone called for emergency medical services. I was taken by ambulance to a local hospital, where X-rays showed a fracture of my left wrist. I have been placed in a cast and am unable to work or drive for the time being. The other driver told the responding officer that they had not seen the light change. I am submitting this statement with the police report and my medical records.
