Officer's narrative

Officer narrative. On arirval at the scene in Conroe, Texas, I observed two passenger vehicles stopped in the right and center lanes of the roadway with visible damage to the left rear quarter panel of Vehicle 1 and the right front fender of Vehicle 2. Driver 1 stated that Vehicle 2 was positioned in the adjacent lane and changed lanes into the path of Vehicle 1, making contact along the side of both vehicles. Driver 2 stated that the lane change was made with the signal activated and that contact occurred as Driver 1 accelerated to pass. Both drivers were interviewed separately. Driver 1 reported pain in the right shoulder and was evaluated at the scene by EMS, then declined transport. A Passenger in Vehicle 1 reported no injuries. Vehicles were operable and were moved to the shoulder. Traffic was controlled and no citations were issued at the scene pending further review of available witness information.
