Description of the accident (claimant's words)

I was driving north on the frontage road in League City, Texas, and moved into the left lane to make my exit. As I began to change lanes, a silver sedan that I had not seen in my mirror came up alongside me and sideswiped the rear passenger side of my vehicle. The impact pushed my car slightly toward the median before I regained control and pulled onto the shoulder. The otehr driver stopped a short distance ahead and we exchanged insurance and contact information. Both vehicles were drivable, though my rear quarter panel and passenger door were badly scraped and dented. Since the collision, I have had stiffness and pain in my neck, which I believe came from the sudden jolt. I suoght medical attention the same day and was adviesd to rest and follow up with my doctor.
