Description of the accident (claimant's words)

I was stopped at a red light on the main road in Baytown, Texas, waiting to turn left, when I felt a hard jolt from behind. The vehicle that hit me was traveling too fast to stop in time, and the impact pushed my car forward into the intersection. I did not see the other car coming because I was checking my mirror for traffic in the other lane. Both vehicles were drivable, but my car sustained damage to the rear bupmer and trunk. Within a few hours I developed stiffness and pain in my neck and upper back, and I was diagnosed with whiplash. I have been attending physical therapy sessions since then and am following my doctor's instructions for rest and treatment. I am providing this account so the claim can be processed accurately.
