Vehicle:	2016 Honda Civic
VIN:	AY80TLDE6UKGA7170
License plate:	3JF A98
Reported injury:	wrist fracture

Description of the accident (claimant's words)

I was stopped at a red light on a busy road in Houston, Texas, waiting for traffic to clear, when I felt a hard impcat from behind. My car lurched forward and my head snapped back against the headrest. The other vehicle had been following too closely and did not stop in time. I was able to get out of my car and move to the shoulder while we waited for the police to arrive and file a report. My right wrist was throbbing badly and I could not grip anything without sharp pain. I went to the emergency room later that day, where an X-ray showed a fracture in my wrist. The doctor placed it in a splint and advised me to follow up with an orthopedic specialist. My car has visible damage to the rear bumper and trunk, and I am requesting coverage for the vehicle repairs, medical treatment, and time away from work.
