Vehicle:	2013 Nissan Altima
License plate:	
Injuries reported:	wrist fracture
Investigating officer:	Officer Leslie Gardner, Badge 1030

Officer's narrative

Officer's narrative: On arrival at the secne of a two-vehicle rear-end collision in Baytown, Texas, I obesrved a silver sedan with heavy rear-end damage positioned behind a dark SUV in the right lane of the roadway. Driver 1, the operator of the sedan, reported that traffic ahead slowed abruptly and that Driver 1 was unable to stop in time before striking the rear of the SUV. Driver 2, operator of the SUV, stated that the vehicle was stopped at the time of impact and that brake lights were functioning. A Passenger in the SUV was seated in the front right position and reported neck discomfort. Driver 1 stated pain in the left wrist and was evaluated on scene by emergency medical personnel, who noted swelling and limited mobility consistent with a possible wrist fracture. Both vehicles were driven from the roadway after the collision was cleared. No citations were issued at the time of the report pending further review of the statements and scene measurements.
