Description of the accident (claimant's words)

I was backing out of a space at the north end of the lot when I felt a jolt and heard a loud crunch. I had checked my mirrors, but the vehicle behind me was moving faster than I expected, and its front bumper struck the rear corner of my car. Both of us stopped right away. I stayed in my seat for a moment because my head had snapped against the window frame, and I felt dizzy and had a ringing in my ears. The other drievr came over and asked if I was okay. A store employee called for help, and I was taken to urgent care, where I was diagnosed with a concussion and told to rest for several days. My rear bumper, trunk lid, and tail light are damaged. I have attached photos of the scene and the damage, along with the repair estimate and the urgent care discharge paperwork.
