Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered, a vehicle coming from the cross street ran the red light and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt a sharp jolt through the seat. My airbags did not deploy, but my left knee hit the door farme and started swelling within the hour. I stayed at the secne until the police arrived and gave them my statement. The other driver admitted at the scene that they had not seen the signal. I was taken by ambulance to the local emergency room, where staff examined my knee and advised me to rest it and keep it elevated. I am still experiencing pain when I bend or put weight on the leg, and I have been unable to return to work since the accident.
