Description of the accident (claimant's words)

I was driving in the right lane on a busy road in Pasadena, Texas, when I signaled and began moving left to change lanes. As I moved over, a vehicle in the left lane came up alongside me and its side made contact with the passenger side of my car. There was a loud scraping sound, and both vehicles pulled toward the shoulder. I checked my mirrors and brought my car to a stop once it was safe. The other driver stopped as well, and we exchanged information. My car sustained damage to the side panels and mirror. I felt a sharp pain in my right shoulder from bracing against the steering wheel and seatbelt during the impact. I have since been seeking treatment for the shoulder injury and am documenting my symptoms and medical visits for this claim.
