Description of the accident (claimant's words)

I was driving in the right lane on the access road in Baytown, Texas, heading toward the on-ramp, when I checked my mirror and signaled to move into the left lane. As I began to change lanes, a vehicle in that lane pulled alongside me and its passenger side struck the driver's side of my car. The impact pushed my vehicle slightly toward the median and I felt a jolt through the steering wheel. I stopped on the shoulder, turned on my hazard lights, and checked on the other driver, who was not injured. We exchanged insurance information and I took photos of both vehicles and the damage. Later that day I noticed stiffness and a sharp pain in my lower back, which has been diagnosed as a back strain. I am reporting this injury and the damage to my vehicle for claim processing.
