Description of the accident (claimant's words)

I was merging from the middle lane onto the frontage road in League City, Texas, when I checked my mirror and began to move over. I had already signaled and believed the lane was clear. As I shifted, the vehicle beside me moved into the same space, and our driver side and passenger side made contact with a scraping sound. Both of us pulled onto the shoulder. My car sustained damage along the rear quarter panel and the rear door. I experienced a sharp impact to my head against the window frame and was dizzy and nauseous afterward. The other driver and I exchanged insurance information and took photographs of both vehicles and the roadway. Emergency medical staff evaluated me at the scene, and I was later diagnosed with a concussion and advised to rest and avoid screens for several days.
