Description of the accident (claimant's words)

I was driving my sedan east on the main road in Pasadena, Texas, and had signaled to turn left into a shopping center parking lot. I slowed, checked for oncoming traffic, and began my turn when I was struck on the driver's side by a pickup truck that came through the intersection. The impact spun my car partially around and pushed it toward the curb. I remained in the vehicle until help arrived. Afterward, I felt immediate stiffness in my neck and pain radiating into my shoulders. I was evaluated at the scene and later sought medical care, where I was diagnosed with whiplash. I have since been attending physical therapy and have missed several days of work. I am providing this statement so the details of the collision are accurately recorded.
