Description of the accident (claimant's words)

I was backing out of a parking space at the shopping center on the north side of Conroe, Texas, moving slowly with my mirrors checked, when I heard a horn and felt a sharp impact on the rear passenger side of my vehicle. A pickup truck had been traveling down the aisle without slowing at the intersection of the two rows. I stopped immediately and got out to look. Both vehicles had visible damage, and the other driver and I exchanged insurance information and took photographs of the scene. When I stepped out, I landed awkwardly and fell against the door frame, injuring my left wrist. I was evaluated at the local urgent care clinic, where an X-ray confirmed a fracture, and I was placed in a splint. I am providing this account so the claim can be documented accurately and promptly.
