Harbor Point Mutual Auto Insurance

Bodily Injury Unit

Claim Notes

Claim number:	C-1365
Claimant:	Kenneth Doyle
Adjuster:	Christopher Wong

2024-01-23 - Reviewed initial report for left-turn collision at intersection. Insured states they turned left on a green arrow and the other vehicle entered from the opposing direction. Claimant reported back strain at scene and was transported by EMS. Photos requested from both drivers. Liability not yet determined.

2024-01-31 - Spoke with insured's recorded statement. Insured confirms signal phase and says oncoming vehicle was not visible until the last moment due to a parked truck blocking sight lines. Requested scene diagram from the responding officer. Will cross-check against traffic camera availability.

2024-02-08 - Claimant is now represented by counsel. All further contact to go through the attorney's office. Received letter of representation and a request for the claimant's policy limits and medical authorization. Forwarded the request to the supervisor for handling under bodily injury protocol.

2024-02-14 - Obtained the responding officer's report. It cites the other driver for failure to yield on a left turn. Insured's version is consistent with the officer's account on signal phase. Preliminary liability assessment leans toward the other party at roughly 70 percent, pending review of the scene diagram and witness contact.

2024-02-21 - Received treatment records from the claimant's attorney covering urgent care and a follow-up with a physical therapist. Diagnosis listed as lumbar strain with no fracture noted on imaging. Records reviewed and placed in the injury file. Next step is to schedule an independent medical review and confirm whether the claimant has returned to work.

Recorded Statement

Claim number:	C-1365
Statement of:	Kenneth Doyle
Taken by:	Christopher Wong
Date:	2024-01-21

Q: Thank you for agreeing to give a recorded statement. Please state your full name for the record.

A: I'd rather just keep it to my side of things. You can refer to me as the driver of the vehicle.

Q: That's fine. Can you describe where you were when the collision happened?

A: I was making a left turn at a signalized intersection in Katy, Texas. I had the green arrow, or at least I thought I did.

Q: What was the traffic like at the time?

A: Pretty steady. There was a car in the oncoming lane waiting to go straight, and a delivery truck was parked near the corner.

Q: Did you see the other vehicle before impact?

A: Not until the last second. It came through from the opposite direction and clipped the front passenger side of my car.

Q: How fast were you traveling?

A: Maybe fifteen or twenty miles an hour. I was already slowing down for the turn.

Q: Did your airbags deploy?

A: No. The impact jolted me forward and then back into the seat, and that's when my lower back started to hurt.

Q: Have you sought medical attention since the collision?

A: Yes. I went to an urgent care clinic that same afternoon. They diagnosed a lumbar strain and told me to rest and take anti-inflammatories. I've also started physical therapy twice a week.

Q: Are you currently experiencing any other symptoms?

A: Some stiffness when I get up in the morning, and it's hard to sit for long periods. I've missed a few days of work because of it.

Q: Is there anything else you'd like to add to your statement?

A: Only that I was careful and I believe the other driver should have yielded. I'm willing to provide my medical records.

Q: Thank you. This concludes the recorded statement.
