Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when a vehicle coming from the opposite direction struck the front driver's side of my car. I had stopped briefly to wait for a gap in traffic and proceeded when I believed the lane was clear. The other driver did not appear to slow down before impact. Both vehicles sustained front-end damage, and my airbags did not deploy. Immediately after the collision, my left knee was painful and swollen, and I had difficulty bearing weight on it. Emergency medical personnel attended the scene, and I was taken to a local hospital for evaluation. I have since been advised to follow up with an orthopedic specialist and to limit physical activity while the knee heals. I am providing this account to support my claim for vehicle repairs, meidcal expenses, and related losses.
