Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered the crossing, a vehicle coming from the cross street ran its red light and struck the driver's side of my car. The impact spun my vehicle partially around, and I felt my left arm slam against the door frame and the steering wheel. My airbags deployed. Bystanders stopped to help, and I was taken by ambulance to the nearest hospital, where X-rays confirmed a fracture of my right wrist. I was unable to drive or work for several weeks afterward. I have photographs of the damage to both vehicles and the intersection, along with the other driver's insurance information and the police report number issued at the scene.
