Claim Notes

Claim number:	C-1376
Claimant:	Diane Hamilton
Adjuster:	Chelsea Hebert

June 17, 2024 - Received first notice of loss for a left-turn collision at an intersection. Insured vehicle was turning left when it was struck by an oncoming vehicle. Police report requested. Insured reports minor airbag deployment and claimant reportedly hit head on the window frame.

June 20, 2024 - Claimant has retained counsel. All further contact to be directed to the attorney's office. Requested medical authorization and prior treatment records through counsel. Noted that claimant is reporting concussion symptoms including headache, light sensitivity, and difficulty concentrating.

June 27, 2024 - Reviewed scene photos and statements from both drivers. Each driver describes a green signal for their direction, creating a disputed liability picture. Witness statement obtained from a pedestrian who saw the oncoming vehicle approach at speed. Liability assessment pending.

July 2, 2024 - Counsel's office provided initial medical summary showing emergency department visit following the collision and referral to neurology. Follow-up imaging and cognitive assessment have been requested. Reserve adjusted to reflect possible extended treatment period for the concussion claim.

July 8, 2024 - Spoke with defense liaison regarding comparative fault arguments. Vehicle telematics requested to verify speed of the oncoming vehicle. Claim remains open pending neurology report, telematics data, and resolution of liability dispute. Next review scheduled upon receipt of outstanding documents.

Recorded Statement

Claim number:	C-1376
Statement of:	Diane Hamilton
Taken by:	Chelsea Hebert
Date:	June 17, 2024

Q: Thank you for agreeing to give this recorded statement. Please state and spell your full name for the record.

A: I'm the claimant, and I'd rather not give my full name on a recording like this. You can use "the claimant."

Q: That's fine. Can you describe where the collision happened?

A: It was at a signalized intersection in League City, Texas. I was turning left, heading through the intersection on a green arrow.

Q: What happened as you made the turn?

A: A vehicle coming from the opposite direction did not stop for its red light and struck the front driver's side of my car. My airbag deployed, and my head hit the side window hard.

Q: Did you lose consciousness or feel dazed afterward?

A: I didn't pass out completely, but I was foggy for several minutes. I had a headache right away and felt nauseous in the ambulance.

Q: Have you been diagnosed with any injury?

A: Yes, I was diagnosed with a concussion. The doctor told me to rest and avoid screens for a while, which has been difficult because I work on a computer.

Q: Are you still experiencing symptoms?

A: Yes. I get headaches in the afternoon, and bright lights bother me. I'm also more tired than usual.

Q: Did you see the other driver stop or say anything at the scene?

A: The other driver said they didn't see the light change. They seemed shaken but didn't appear to be seriously hurt.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm following my doctor's treatment plan and I'm willing to proivde my medical records.

Q: Thank you. This concludes the recorded statement.
