Description of the accident (claimant's words)

I was driving east on the main road and had a green light as I entered the intersection. A pickup truck coming from the crsos street did not stop for its red light and struck the driver's side of my vehicle. I felt a hard jolt, and my car spun partway around before cmoing to rest against the curb. The airbags did not deploy, but I was shaken and could not get out of the car right away. Officers arrived on scene and took statements from both drivers and several witnesses. Since the collision, I have had stiffness and sharp pain in my neck and lower back, and I have been unable to sleep comfortably or lift objects without discomfort. I sought medical evaluation as soon as I could and was told I have a neck and back strain. I am providing this account so the facts of how the collision happened are recorded accurately.
