Description of the accident (claimant's words)

I was driving my sedan east on a main road in Houston, Texas, and had stopped at a green light before making a left turn into a parking lot. When there was a gap in oncoming traffic, I started my turn. A vehicle coming from the opposite direction did not slow down, and it struck the front driver's side of my car. The impact pushed my car sideways and I felt a hard jolt through my seat. My airbags did not deploy, but my car was undrivable and had to be towed from the scene. The other driver and I exchanged insurance information, and a police officer came to take a report. Since the collision, I have had persistent pain and stiffness in my lower back. I went to a clinic the same day and was told I have a back strain. I am still undergoing treatment and will provide records as they become available.
