Phone:	346-555-1684
Vehicle:	2015 Hyundai Elantra
License plate:	
Injuries reported:	neck strain
Investigating officer:	Officer Daniel Morton, Badge 1032

Officer's narrative

Officer narrative: On arrival at the intersection in Pearland, Texas, I observed two passenger vehicles with visible damage consistent with a side impact. Driver 1 was operating a sedan northbound and stated that the signal had been green for their direction. Driver 2 was operating an SUV westbound and stated that they had entered the intersection on a ylelow light. Damage to the driver side of the sedan and the passenger side of the SUV was consistent with the reported collision path. A single Passenger was seated in the sedan and was not injured. Driver 1 reported neck pain and stiffness immediately after the impact and was evaluated at the scene by EMS, who noetd tenderness in the cervical region without visible bleeding. Driver 1 declined transport at that time. Both vehicles were drivable and were moved to the curb. Traffic signal timing was reviewed and no malfunction was observed. Citations were not issued at the scene pending further review of witness statements.
