### Description of the accident (claimant's words)

I was driving north on the main road in Conroe, Texas, slowing for a stop when the car in front of me stopped suddenly. I was going at low speed and tried to brake, but my vehicle still struck the front of the other car in a head-on collision. The impact was minor. Both cars had damage to the front bumper and hood, and both drivers were able to pull over safely to the shoulder. The other driver and I exchanged insurance information and the police were called to the scene to file a report. Immediately after the collision I felt a stiff, sore pain in my neck and I had difficulty turning my head to the left. I was later evaluated and diagnosed with a neck strain. I am submitting this statement to document the accident and the injury I sustained as a result.
