Officer's narrative

Officer narrative: On arrival at the scene in Conroe, Texas, I observed two passenger vehicles in a head-on collision, with front-end damage to both. Driver 1 was operating the northbound vehicle and Driver 2 the southbound vehicle. Based on statements and vehicle positions, the collision appears to have occurred when Driver 2 crossed the centerline while attempting to pass a slower vehicle. Speeds at impact were estimated to be low, and both vehicles were drivable with airbags not deployed. A Passenger was seated in the front right seat of the southbound vehicle and was not injured by the impact. Driver 1 reported pain in the neck and stated the neck strain began immediately after impact. Driver 1 declined transport by EMS at the scene but was advised to seek medical evaluation. Driver 2 reported no injuries. Photographs were taken of both vehicles and the roadway, and the scene was cleared without further incident.
