Description of the accident (claimant's words)

I was driving westbound on a residential street in Conroe, Texas, at a slow speed when a vehicle coming the other way drifted into my lane and our front bumpers made contact. Neither car was going fast, and both of us came to a stop within a few feet of the impact. The airbags did not deploy. I got out of my vehicle and spoke with the other driver, who appeared shaken but said she was not hurt. Shortly afterward I noticed severe pain and swelling in my left wrist, which I had braced against the steering wheel. I was taken to a local urgent care clinic, where an X-ray showed a fracture, and I was given a splint and referred to an orthopedic specialist for follow-up. I am reporting this accident and the resulting injury so that my medical treatment and vehicle damage can be documented.
