Description of the accident (claimant's words)

I was driving north on the frontage road in Sugar Land, Texas, planning to move into the right lane ahead of an exit. I checked my mirror, signaled, and began to merge when the vehicle beside me, which I had not seen in my blind spot, moved into the same space. Our driver side and passenger side made contact with a scraping sound and a hard jolt. I steered to the shoulder and stopped. My head struck the window frame during the impact, and within minutes I felt dizzy, nauseous, and had a throbbing headache. I was evaluated at the scene and later went to an urgent care clinic, where I was diagnosed with a concussion and advised to rest and avoid screens. I have not been able to return to work since. I am submitting this account so the claim can be processed.
