Description of the accident (claimant's words)

I was driving east through the intersection on a green light when a white pickup ran the red and struck the driver's side of my sedan. The impact spun my car partway around and pushed it onto the curb. My airbags deployed, and I was thrown against the door and the center console. The other driver stopped briefly, then left the scene before the police arrived, so I wrote down the partial plate number and gave it to the officer who responded. I was taken by ambulance to the emergency room, where X-rays confirmed a fractured left wrist. My arm is in a splint and I have been advised to see an orthopedic specialist. My car is not drivable and is currently at a tow yard. I am requesting coverage for the vehicle damage, medical treatment, and lost wages while I recover.
