Description of the accident (claimant's words)

I was driving north on the main road and approached the intersection on a green light. As I entered the crossing, a vehicle coming from my right failed to stop for its red signal and struck the driver's side of my car. The impact pushed my vehicle sideways and I felt my left knee hit the dashboard and door frame. The airbags did not deploy, but I was unable to put weight on my leg for several minutes. Other drivers stopped to check on me, and police responded to the scene and prepraed a report. I was taken by ambulance to the nearest hospital, where I was examined and told I had a knee injury that needed further evaluation. I have since been in touch with my doctor about ongoing pain, swelling, and limited movement in the knee, and I am following the treatment plan I was given.
