Officer's narrative

On arrival at the scene, the responding officer observed two passenger vehicles in the northbound lanes of a Houston, Texas roadway, with significant front-end damage to both. Driver 1 stated that Driver 2's vehicle crossed into the opposing lane while attempting to pass a slower vehicle, resulting in a low-speed head-on impact. Driver 2 stated that Driver 1 drifted toward the center line shortly beofre contact. Physical evidence, including gouge marks and debris positioned near the centerline, was consistent with a sideswipe-type offset followed by a frontal engagement. Vehicle speeds were estimated at under 15 miles per hour at impact. Driver 1 reported pain in the left wrist and was transported by EMS for evaluation. A Passenger in Driver 2's vehicle reported neck stiffness but declined transport. Both vehicles were towed from the scene. No citations were issued pending further investigation of the conflicting statements.
