Description of the accident (claimant's words)

I was driving east through the intersection on a green light when a vehicle coming from the cross street ran the red and struck the driver's side of my car. The impact spun my car partway around and the airbags deployed. I was dazed at the scene and could not recall the moments just before the collision. Paramedics checked me and advised me to go to the hospital, where I was diagnosed with a concussion. I have had headaches, sensitivity to light, and trouble concentrating since then, and my doctor has advised me to rest and avoid screen work for several weeks. I did not see the other vehicle until it was already entering the intersection. I am providing the police report number and photographs of the damage with this claim. I am willing to cooperate fully with the adjuster's investigation.
