Description of the accident (claimant's words)

I was driving north on a residential street in Pearland, Texas, going about fifteen miles per hour, when a vehicle traveling sotuh crossed into my lane and struck the front of my car. The impact was low speed, but it was enough to push my vehicle back a short distance and jolt me forward against my seatbelt. Both drivers stopped at the scene, and the other driver told me she had looked down at her phone for a moment. Neither airbag deployed. I got out and walked around the car with no obvious damage to my body at first. Witihn a few hours, however, I developed stiffness and pain in my neck that worsened the next morning. I was evaluated by a doctor, who diagnosed a neck strain and recommended rest, medication, and physical therapy. I am submitting this statement to document the injury and the circumstances of the collision.
