Description of the accident (claimant's words)

I was driving my car and turning left at an intersection in Pasadena, Texas, when another vehicle came through the intersection and struck the side of my car. I had been waiting for a gap in oncoming traffic and had started my turn when the impact happened. My vehicle was pushed partway into the lane and the driver's side door was damaged. I stopped my car right away and checked on the other driver, who appeared unhurt. When the police arrived, I told the officer exactly what happened and provided my insurance information. During the collision my left knee struck the lower part of the dashboard, and I have been experiencing pain, swelling, and difficulty bending it since then. I have been seen by a medical provider and am following their reocmmended treatment. I am submitting this claim for vehicle repair costs and for my medical care related to the knee injury.
