Investigating officer:	Officer Jeffrey Jones, Badge 1035

Officer's narrative

Officer's Crash Report Narrative

On the date of this report, I was dispatched to a two-vehicle collision involving a sideswipe at a multi-lane roadway in Conroe, Texas. Upon arrival, I observed Driver 1's vehicle positioned partially in the center lane with contact damage along the right rear quarter panel. Driver 2's vehicle, a sedan, displayed scraping damage along its left front fender and door. Both drivers stated that Driver 1 was changing lanes to the left when the vehicles made contact. Driver 2 reported attempting to avoid the collision by braking and steering right, but was unable to fully prevent the impact. A passenger in Driver 1's vehicle, identified herein as Passenger, reported neck pain and stiffness and was evaluated at the scene by emergency medical personnel. Passenger declined transport at that time. No citations were issued pending further investigation. Both vehicles were drivable and were removed from the roadway without incident.
