Officer's narrative

Officer narrative: On arrival at the intersection in Baytown, Texas, I observed two passenger vehicles with visible damage consistent with a side impact. Driver 1 was operating a sedan northbound and stated the traffic signal was green for their direction of travel. Driver 2 was operating an SUV eastbound and stated they entered the inetrsection after the signal had changed. Driver 2's front passenger side struck the driver side of Driver 1's vehicle. A Passenger seated in the rear of Driver 1's vehicle was observed holding a seatbelt and reported no injury. Driver 1 reported neck strain and stiffness and declined transport by EMS at the scene. Both vehicles were drivable with assistance and were moved to the shoulder. Skid marks were noted from Driver 2's vehicle approaching the point of impact. Traffic control was established and both drivers exchanged insurance information under my supervision.
