Description of the accident (claimant's words)

I was driving east on the main road and had a green light when I entered the intersection. A pickup coming from the cross street did not stop for its red light and struck the driver's side of my vehicle. The impact pusehd my car sideways and I felt a strong jolt through my seat and shoulder belt. I did not lose consciousness, but I was shaken and could not get out of the car right away. The other driver stopped at the scene and we exchanged insurance and contact information. A police officer arrived and took a report. Since the collision I have had stiffness and pain in my lower back, and my doctor has diagnosed a back strain. I am giving this statement so the claim can be processed and my medical treatment covered.
