Description of the accident (claimant's words)

I was driving north on the main road in Baytown, Texas, around late afternoon, when traffic ahead slowed suddenly. I braked, but the car in front of me had already stopped, and the vehicle coming toward me in the oncoming lane swerved into my path. We collided head-on at low speed. Neither car was going fast, and both airbags stayed in their housings. I felt my head snap forward and back, and my neck and lower back tightened immediately. I stayed at the scene until the other driver and I had exchanged information and a patrol officer arrived to take a report. Later that evening I noticed stiffness and a dull ache across my shoulders and along my lower spine. I am seeking reimbursement for the medical evaluation and physical therapy that followed.
